

Comparing Apples with Apples

Here at House Calls we pride ourselves on making your curtains purchasing experience as easy as possible. To help you make an informed decision here are some of the important factors we feel using House Calls sewing room is the right choice.

1. The fullness of the fabric makes a big difference to the look of the curtain whether it is to look full and luxurious or skimpy and lifeless. Here at House Calls we use 100% fullness unless otherwise stated.
2. The tape and type of heading you wish to choose can give the curtains an up to date look and give you a special point of difference.
 - The types of headings House Calls offers is gathered with 75 mm or 100 mm depending on what type of look you would like.
 - Single or triple pinch pleat
 - New York pleat or often called an inverted pleat
 - Wave pleat

Please feel free to discuss these options further as we can show you the difference with samples.

3. A good quality lining helps reduce your main drape from fading, and gives better insulation.

House Calls uses a luxury blackout lining that also gives you an extra layer of insulation from the elements. This eliminates light penetration and keeps the rooms warmer in the winter and cooler in the summer. We also offer coloured lining's or natural cotton if you would like them.

4. Another way you may like to make your home even warmer is to use Bump between your lining and your main drape. This acts as an extra trap for the warm air and gives your curtains an even more luxurious handle.
5. Tracks and Rods can create a special look to a room depending on the style and look you want to achieve. The finishing touch could be holdbacks or tiebacks, fringes, tassels, pelmets, swag and tails or please ask us for any information you may want on these.
6. To make sure that your curtains and blinds stay in place and look at their very best we offer a installation service to ensure you have a trouble free curtain experience.
